Technical information

Productnumber : 98-5458GB-B

Product description

Used 210-litre steel drum, green lacquered and B-grade. With perforated bottom. This barrel lacks the lid to close the top. There is also damage to the edges of the barrel, making it difficult to put a lid on this barrel. The barrel can be used for storing bulk materials that do not rely on a sealed environment, such as dry goods, metal parts, wood chips, or other items. The perforated bottom can be useful as a drainage option, especially when used for liquids that require drainage or ventilation. It can help drain liquids or allow air circulation.

Specifications

Article arrangement: Used
Version: Wide neck vessel
Walls: walls closed
Colour: green
Length (mm): 580
Width (mm): 580
Height (mm): 970
Volume (ltr): 210
Options: B quality
Additional specifications: WITHOUT LID

Type: steel drum
Material: steel
Floor: perforated
Surface treatment: painted and use damage
Internal length (mm): 550
Internal width (mm): 550
Internal height (mm): 950
Weight (kg) 11.5
Type number: 5458GB
EAN Code (Gtin) 8719424233377
