Technical information

Productnumber : 450-M800-V

Product description

Transport container for the supply and disposal of flammable liquids with a flash point $>55^{\circ}\text{C}$. A stable conical outer container made of 3 mm steel plate as a collision protection and collection container with 100% volume, including a leakage dipstick. The container contains a PE inner tank. This container is easy to take with you due to the 100 mm underride height and insertion shoes. This container is easy to clean. The content of the container is 800 litres.

Specifications

Article arrangement: New

Version: outside container of 3 mm steel plate

Walls: flat steel plate

Subgroup: Transportcontainer

Surface treatment: galvanized

Width (mm): 1000

Volume (ltr): 800

Type number: 450-M800

Type: Fluid transport container

Material: PE-internal tank

Floor: closed

Colour: colorless

Length (mm): 1200

Height (mm): 1145

Weight (kg) 220

EAN Code (Gtin) 8719424009514
