Product description

Used 2-rack roll container with dimensions of 800x720x1680 mm. The roll container has a wooden roll bottom. Quick assembly and dismantling by means of the hot-dip galvanised steel plug-in fences. Each rollcontainer comes with 2 rubber lashing straps as standard, which can vary in colour black or green. The rollcontainer is fitted with two swivel castors and two fixed-wheel castors, diameter 125 mm.

The versatility of a 2-wheel roll container makes it suitable for various applications. Very suitable for use, for example, in distribution centres, warehouses, catering, events sector or supermarkets for efficient transport and storage of goods or bringing products to the shelf.

Notice! These roll cages are not selected for the fences or wheels. You will receive a 2 rack roll container with clamp gates and a wooden roll bottom. This lot amounts to almost only rubber wheels, however, in some cases you may receive a roll container with polyurethane wheels. The clamp gates may differ in width, but both work in the same functional way.
