Technical information

Productnumber : 80-RB2000

Product description

Compose your own roller conveyor. The roller conveyor is available in various sizes and curves, making it suitable for use in many areas. The unpowered roller conveyor is standard equipped with side guides and manually removable mats (see film). The angle of inclination depends on the weight of the goods to be transported.

- roll width 440 mm
- roll diameter 50 mm
- center-to-center distance 62 mm
- load capacity per roll 25kg

Please note! This requires 2 uprights (see items that can be combined).

Specifications

Article arrangement: New
Version: 2000 mm with side guides
Colour: blue
Length (mm): 2000
Height (mm): 127
EAN Code (Gtin) 8719424015133

Type: with plastic rollers
Material: steel
Surface treatment: powdercoating
Width (mm): 468
Type number: 80-RB
