

Technical information

Productnumber : 10-XS01-OBY

Product description

The Skipper XS range of products were developed to adapt Skipper's great versatility to indoor environments such as in warehousing, manufacturing and facilities management – where room for cones and posts is not available.

The unique XS range allows for connection to any indoor surface, from high gloss and glass, to worktops, shelving, door frames and pillars, making anything possible. The Skipper XS unit has the full 9 metres (30ft) of high-specification fabric tape that's made Skipper the market leader in retractable barriers. Its three connector points allow it to interface from various angles with its accessories, each of which can hold the XS unit in place and receive its tape end clip, making the range hugely versatile and adaptable to indoor environments.

Note, accessories after main photo are available separately at Kruizinga.co.uk, to give an idea of what is possible when combined.

Specifications

Article arrangement: New

Version: unit with yellow / black barrier tape

Subgroup: Barriers

Length (mm): 145

Height (mm): 126

Type number: 10-XS01

Type: accessories

Material: plastic

Colour: orange

Width (mm): 145

Weight (kg) 0.7

EAN Code (Gtin) 8719424180893
