Product description

Pallet offer of 72 used stackable plastic bin. Widely applicable for transport and storage. This stackable container has perforated walls with height 240 mm and a perforated bottom, making it permeable to dirt and air, thus providing optimum protection for the contents.

Suitable for export of flower bulbs, other agricultural products and the tree nursery sector. You can also use them as transport crates, warehouse crates or storage crates. Also called agrikrat, agricultural crate, agricultural bin or unpacking and supply crate.

Note! These bins contain different bottoms. However, they are stackable among themselves and have the same dimensions.
