Product description

Robust plastic storage bin 235x145x125 mm is ideal for storing your stock of small parts and service parts. With ergonomic half-open front and practically stackable. The contents of the storage bin are thus easily accessible and stacked, they do not take up unnecessary space. Very suitable for grab stocks (order picking) in workshop, garage, storage racks or service vehicles. The storage bin can also be fixed on rails or wall panel by a stable suspension edge at the back.

The optional lids or inserts made of crystal-clear plastic prevent dust and keep the contents protected. With lids, the storage bins are also very suitable for use as an internal shipping unit. See combinable articles.
