Product description

Material stand for Euro containers, wire baskets, etc. The material platform is infinitely adjustable and lockable. This stand can also be adjusted under load by means of the hydraulic pump with foot pedal. The lowering valve can be controlled very precisely. The platform has one raised edge on the long side and can be tilted at an angle of 15° or 30°. The platform can be moved by four swivel castors, two of which have brakes. The stand has been treated with powder coating for a robust and scratch-free exterior and has a load capacity of 150 kg.
