Technical information

Productnumber : 854101

Product description

Light handcart made of welded steel tube with removable plastic container. The hand pull cart has been treated with a powder coating for a robust exterior. The car rolls on pneumatic tires for smooth running. The container has a capacity of 90 liters with dimensions: 700x400 mm. The load capacity is 200 kg.

Also available with bicycle coupling to use the car as a bicycle trailer.

Specifications

Article arrangement: New

Version: with plastic tray
