Product description

Matador Smart ergonomic stool against back problems

- Due to the double curved (double parabolic) seat shape, you automatically stretch your back and always vary sitting posture.
- This results in a better general body posture.
- The ZAMI makes you aware of your attitude. You correct immediately a bad attitude.
- Spine maintains its natural protective S-curve
- Experience less pressure on the lower back, improved breathing, freedom of movement of the head and neck and increase of back and trunk muscles.
- You can easily alternate sitting postures that be protective of your back: with your knees down or in saddle seat.
- The ZAMI gives your legs all the space to different to assume sitting postures.
- The frame is made of powder-coated aluminum.
- The seat is made of strong pressed beech wood with a filling of high-quality Polyurethan foam RG 65/90 and is covered with real leather (aniline dyed).
- Slim design and a graceful appearance.
- Seat height 481 mm
- For table height 750 mm

Specifications

Article arrangement: New
