

## Technical information

Productnumber : 91-27949875

### Product description

High quality Kruizinga hand pallet truck with weighing system, reliability at the best price. A weighing pallet truck can save you a lot of time every day. With the weighing pallet truck the load is weighed while you move it! Thereby, weighing can be done at any place and any time without taking up extra space; this in contrast to a stationary weighing system. The large rubber steering wheels allow the pallet truck to turn extremely lightly: maneuver pallets easily and lightly from A to B. The comfortable handle controls the lifting, driving and lowering of the pump truck manually. The torsion-free frame is made of sturdy steel construction and particularly wear-resistant powder coating. Tandem load wheels made of polyurethane: high quality, comfortable and low noise. The tandem rollers perform particularly well on uneven surfaces and when picking up pallets crosswise, also ensures easier handling and minimal point loading. Load capacity up to 2000 kg.

Actual weight (kg): 121,000 kg

Load capacity (kg): 2000

Lifting height (mm): 200

Length of forks (mm): 1150

Width over forks (mm): 555

Number of fork wheels: 4

Steering wheel material: rubber

Material of the weighing pallet truck: steel

Pump material: painted steel (cast)

Accuracy (%): 1

Scale distribution: 1 kg

### Specifications

Article arrangement: New

Version: lifting height 85-200 mm

Wheels front: solid rubber (steering wheel)

Colour: yellow

Surface treatment: powdercoating

Internal length (mm): 1150

Loading capacity (kg): 2000

Weight (kg) 104

Type: with weighing system 1.0 kg

Material: steel

Wheels back: polyurethane (tandem)

Ral colour: 1003

Length (mm): 1540

Width (mm): 555

Application: with weighing system

Options: standard fork length
