Technical information

Productnumber : 99-5433GB

Product description

Used wooden pallet with the CP3 code, with dimensions of 1140x1140 mm. These pallets are made of wood and are designed to be efficient in moving and storing goods. The CP3 code denotes a specific pallet standard recognised in the logistics sector, which means that these pallets are compatible with systems and machines aligned with this standard. CP stands for "Chemical Pallet," and CP3 is a specific classification within the CP system. CP3 pallets are often used in the chemical industry. They have a standardised design and dimensions (square) to promote efficiency in logistics processes, especially in situations where chemicals are transported and stored.

Specifications

Article arrangement: Used

Version: 4-sided

Length (mm): 1140

Height (mm): 140

EAN Code (Gtin) 8719424220940

Type: wooden pallet

Material: wood

Width (mm): 1140

Type number: 5433
