## Technical information

**Productnumber : 99-1545-D850-12**

### Product description

Lot offer of 12 Anti-theft roll containers on A-frame made of electrolytically galvanised steel with a load capacity of 500 kg. Equipped with one folding shelf. The base, door, shelf and walls are gridded. This container runs on four non-marking rubber swivel castors, two of which have brakes. This makes the roll container very manoeuvrable and user-friendly. The door, side walls and shelf can be folded to make the trolley nestable. The nestable construction allows you to save space during return transport or when not in use. This anti-theft roll container is often used when transporting valuable products that need extra security.

Note: Delivery without padlock.

### Specifications

Article arrangement: New

Version: A-nestable

Walls: mesh 50\*50\*4 mm

Wheels front: 2 castor wheels solid rubber with wheel locks 125 mm

Wheels back: 2 fixed wheels, solid rubber 125 mm

Colour: colorless

Length (mm): 850

Width (mm): 715

Height (mm): 1900

Loading capacity (kg): 500

Weight (kg) 72.5

Shelf heights: 820/800

Additional specifications: rubber wheels with wheel locks

Type: Full Security

Material: steel

Floor: steel

Subgroup: Full Security

Shelves: floor / 1 shelf / foldable

Surface treatment: electro-galvanized

Internal length (mm): 820

Internal width (mm): 670

Internal height (mm): 1640

Application: incl. 1 level

Type number: 1545-D850

Batch (items): 12

EAN Code (Gtin) 8719424229776
