Technical information

Productnumber : 12-656EURDBLK

Product description

The padlock with free combination selection with master key has a 48 mm wide covered zinc body for strength, reliability and weather resistance. The 8 mm diameter shackle is 27 mm long and made of hardened steel, making it highly resistant to cutting and sawing through. The double locking levers prevent breaking and opening. Security with 4-digit free combination selection offers keyless convenience. Master key provides spare access and a code loss decode function to never be locked out in case of a forgotten combination. The limited lifetime warranty offers peace of mind coming from a brand you can trust.

- 48 mm wide, solid zinc body with covering for strength and weather resistance
- Bracket made of hardened steel that is extra resistant to cutting
- 4-digit self-set combination offers thousands of different combination options
- Push button to open the lock
- Master key for backup access and decryption in case of lost code
- Cylinder with 5 pins for enhanced resistance to puncture attempts

Specifications

Article arrangement: New

Version: combination lock

Colour: black

Type number: 656EURDBLK

Type: padlock

Material: steel

Width (mm): 48

EAN Code (Gtin) 8719424226638
