Product description

Cordon off construction sites or contaminated areas quickly and safely with the combination set of 6 poles with 12 meters of chain in PVC kit with a total height of 900 mm. The PVC chain pile is quick and easy to assemble and also to put away again. The demarcation posts with plastic base are therefore particularly suitable for quick and short-term use. With this barrier you can cordon off indoor and outdoor spaces.

- Top cap with 2 hooks for attaching the chain.
- Set with 6 posts with bases that can be weighted (4 kg) with sand or gravel.
- Total height: 900 mm
- Chain Ø: 8 mm
- Post Ø: 50 mm
- Plinth length: 280 mm
- Base width: 280 mm
- Material: PVC

Specifications

Article arrangement: New

Version: 6 uprights on foot, complete with 12 m chain and hooks (black/yellow)

Subgroup: Barriers

Length (mm): 280

Height (mm): 900

EAN Code (Gtin) 8719424167795

Type: combination kit

Material: plastic

Colour: black/yellow

Width (mm): 280

Type number: A033679
