## Technical information

**Productnumber : 10-SBARRIER-REF**

### Product description

Skipper for external environments  
for Day and Night-time Safety

Skipper is the key to a complete barrier system now offering a reflective webbing to enhance the night-time safety whilst maintaining the same strength and durability as the standard 9m (30ft) retractable Skipper unit.

As well as attaching to Skipper's own cones and posts, you can attach the Skipper unit to almost any standard traffic cone worldwide. The versatile and adaptable unit is used across a wide range of industries, from construction to airports and shipping, to events, retail, facilities management and so many more. Skipper is the original, market leading solution, and the choice of health and safety professionals across the world.
