## Technical information

**Productnumber : 77-00252**

### Product description

Shelving unit complete with accessories. Measuring 640x1390x2000 mm. The shelves are height adjustable, allowing space to be adjusted as required. This shelf unit has a load capacity of 150 kg per shelf. The hot-dip galvanised material makes this shelf rack resistant to corrosion and wear, making it suitable for use in various environments. The shelving unit is supplied unassembled. With all necessary accessories completely included, this shelving unit can be set up quickly and easily for immediate use.
