Technical information

Productnumber : 98-5991GB

Product description

Complete used shop rack double sided. Also called gondola theorem, gondola theorem or middle theorem. A gondola rack consists of a partition wall with adjustable shelves on two sides. Specially designed to be placed in the middle of a room and is therefore ideal when you want to make optimal use of the retail space. The rack stands on adjustable feet so that you can always level the rack on uneven surfaces.

Attention! The rack is delivered unassembled. One set consists of:

- 2x posts 3080 mm high
- 14x closed wall panels green
- 4x closed wall panels beige
- 2x closed wall panels beige (small)
- 6x adjustable shelves
- 8x shelf supports
- 4x adjustable feet
