Product description

Pallet offer consisting of 120 stackable and nestable plastic storage crates (600x400 mm). This plastic stacking box is made of sturdy HDPE. Widely applicable for transport and storage. Equipped with perforated walls with a height of 140 mm and a perforated reinforced bottom and are therefore dirt and air permeable. This way the content is optimally protected. The crate has open handles on each side for optimum handling. The stacking boxes can be nested when not in use, which saves considerable space during storage and transport.
