Product description

Black stackable plastic Euro bins are widely applicable for transport and storage.

This stacking bin has perforated walls with a height of 230 mm and a perforated bottom and is therefore dirt and air permeable, so the contents are optimally protected. The crate has open handles on two sides for optimum handling.

Suitable for export of flower bulbs, other agricultural products, and the tree nursery sector. You can also use them as a transport crate, warehouse crate or storage crate. Also called agri crate, agricultural crate, agricultural bin or unpacking and supply crate.
