Product description

A used stacking rack with dimensions 2100x1105x1600 mm (l x w x h), which means it offers spacious storage solution. Commonly used in the carpet industry for storage and transportation of medium to large carpet rolls. The storage rack is made of green painted steel, which ensures durability and stability. The use of steel makes the rack able to withstand heavy loads and provides protection against rust and corrosion. Features notch skids on all sides for easy pick up and transport by forklift (note! not suitable for hand pallet trucks) The long sides feature steel frames with stacking lugs on the top, which provides stability and prevents stacked racks from shifting or falling over. The short sides of the rack are open, making it easy to load and unload carpet rolls. This open design also maximizes accessibility to stored goods. The rack features a flat steel plate as the bottom, which provides a firm and even surface for the carpet rolls to rest on. This prevents distortion or damage to the rolls during storage and transportation. An efficient solution for storing and transporting carpet rolls in warehouses to distribution centers and factories, where durability, stability and accessibility are key.

Specifications

Article arrangement: Used

Version: fixed construction

Colour: green

Length (mm): 2100

Width (mm): 1105

Height (mm): 1600

Weight (kg) 171

Type number: 7232GB

Type: stackable

Floor: flat steel

Surface treatment: painted and use damage

Internal length (mm): 2100

Internal width (mm): 995

Internal height (mm): 1280

Options: with insertion sleeves

Additional specifications: not suitable for hand pallet trucks
