Product description

Set of 4 ISO sea container swivel casters, Ø252x63 with ISO lock, and brake 9000 kg.

The ISO set of container swivel casters are great for moving shipping containers or ISO containers. Those heavy duty casters are attached by ISO lock / twistlock to the bottom of the ISO container at each corner and easily fixed.

A single caster contains 2 wheels with cast iron cores and polyurethane treads. This makes the rolling resistance very low and at the same time, these special wheels can each handle 3000kg. A set of ISO set wheels consists of 4 caster wheels and carry a total dynamic weight of 9,000kg and a static weight of 12,000kg.

Wheel diameter: 2x 252 mm

Wheel width: 2x 63 mm

Static load capacity (per set): 12,000kg

Dynamic load capacity (per set): 9,000 kg

Construction height: 330 mm

Plate dimensions: 190x159 mm

Bearing type: Ball bearing

Hardness: 90 shore A

Housing material: Welded steel

Material tread: Polyurethane

Directional lock: 4x 90°

Contains additional support wheel

1 set contains 2 braked and 2 unbraked wheels.

Specifications

Article arrangement: New

Version: Ø 252 mm - set of 4 pieces

Colour: orange

Width (mm): 63

Wheel bearing: ball bearing

Type: container wheel

Material: polyurethane rolling surface

Length (mm): 252

Loading capacity (kg): 9000

Type number: 75121826
